

## Successfully Completed the First Movement of Hundred Units of Garbage Trucks

**Projects FPS (Pvt) Ltd**, Sri Lanka successfully completed the first movement of hundred units of garbage trucks which arrived by RORO to Hambanthota Port Sri Lanka during mid-February 2019.

The services rendered by Projects FPS are port handling, customs clearance, transportation including temporary storage of units near to port of discharge for a period of 20 days until all vehicle registration were completed. The trucks were under Projects FPS supervision until they were handed over by our client to the Government of Sri Lanka.

The total operation was carried out by PFPS special operations team, headed by Project Manager Ishan Fernando and the client was extremely satisfied with the services and technical assistance rendered by Project FPS in completing the operation with zero errors and damages and with timely delivery. Projects FPS is very much confident and looking forward to handling the balance project shipments in similar manner.
